Waseca, Minnesota 56093**

March 5, 2010

Dear Business Owner:

Waseca County is attempting to create a list of businesses located in rural Waseca County. We are gathering this basic information about our county businesses in order:

1. To develop a directory of rural businesses and services;
2. To create a mechanism to notify businesses of programs that might be available to area businesses; and
3. To understand local economic development issues.

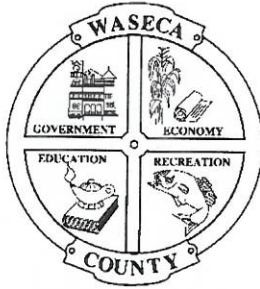

Our goal is to determine the size and approximate make-up of the businesses in rural Waseca County so that we can use the data to more effectively market Waseca County. While participation in this questionnaire is optional, we hope that you will contribute to the work of economic development in Waseca County. As an incentive, once your questionnaire has been returned, we hope to develop a business directory to include your business name and contact information. Upon completion of the directory, your business will be placed free of charge in the Waseca Business Directory on our website.

If you have any questions, please call 507-835-0650. Waseca County greatly appreciates your participation in this survey.

Sincerely,

A handwritten signature in black ink, appearing to read "Todd Bodem".

Todd Bodem
Waseca County Administrator
